

The schedule agreed to among the parties seeks to preserve the dispositive motion deadline and trial date while providing sufficient time for exchange of expert reports, depositions, and discovery. The schedule also proposes an accommodation for the United States to obtain a substitute witness because one of its experts, Dr. Mazeika Sullivan, has become very ill and can no longer serve as an expert. The United States has obtained a replacement witness but requires additional time to produce the expert reports related to the two categories of claims that include work involving Dr. Sullivan: 1) Lake Claim; and 2) Amended Riparian Claims (21 total) (together "Substitute Expert Claims"). Given these unique circumstances the Tribe has also informed the United States that it is also deciding whether to bring on an expert for the Substitute Expert Claims subject to the stipulated schedule below.

Stipulated Proposed Schedule

May 31, 2024:	Disclosure of Claimants' expert reports for all claims other than Substitute Expert Claims
